MESSAGE FROM AMBASSADOR DR. ASAD M. KHAN

I am delighted to return to Tokyo as the Ambassador of Pakistan. Having started my career in Japan as a Japanese language Trainee and thereafter serving in the Embassy from 1993-96, it is indeed a great honour and privilege for me to be appointed as Pakistan's Ambassador to Japan. All this makes me feel very nostalgic. Pakistan and Japan share historical friendship based on trust and mutually beneficial cooperation. For us Japan has been an important development partner with extensive trade and investment linkages. The continued presence in Pakistan of 83 major Japanese companies and their growing numbers and range of activities is a testament to the trade and investment win-wins that our two countries have enjoyed over the decades.

Cooperation in education, science and technology has been another key aspect of our cooperation with Japan. Being a beneficiary of Japanese education myself, I am very keen to make collaboration in education, science and technology as a key strategic pillar of our relationship with Japan. I am happy to note that my first formal official engagement in the Embassy was to welcome the Saukara Science and Technology Exchange Programme participants from Pakistan.

I am also very glad to see an active, vibrant and enterprising Pakistani Community in Japan. I look forward to working closely with the community to harness this great resource in the service of the relationship. It would always be my sincere effort to extend all possible facilitation to the members of community and to work hand in hand with them for strengthening the partnership between Pakistan and Japan.
